

UC DAVIS HEALTH

Date: Tuesday, January 14, 2025

Time: 12:15 PM - 1:00 PM

Location: Virtual

Learning Format: Live Activity

Presentation Information:

- Lunch and Learn: CPG Speaker Series
 - UC Way HTN Algorithm

Description:

The goal of the course will be to utilize our specialists to present topics that focus on chronic disease management, population health issues, and social determinants of health. This will be accomplished by case based presentations that will highlight updates in work ups, guideline based therapies, and new treatment recommendations. We will also include speakers that provide guidance on effective teaching strategies in an outpatient setting given the increased number of learners rotating through outpatient clinics.

Series Objectives:

- 1 Review pertinent cultural data in diagnosis and treatment.
- 2 Develop strategies to minimize unintended bias in decision making that may contribute to health care disparities in primary care.
- 3 Review updates, guidelines, and treatment of chronic health conditions for further development of primary care.

Session Objectives:

- 1 Describe the evidence and clinical rationale for dual therapy initial treatment strategies for hypertension (HTN)
- 2 Identify UC Davis Health tools and resources available to support provider management of HTN
- 3 Apply the UC Way HTN Medication Algorithm when making treatment decisions using case-based scenarios
