

Date: Thursday, July 10, 2025

Time: 12:00 PM - 1:00 PM

Learning Format: Live Activity

Presentation Information:

- Internal Medicine: Grand Rounds; Morbidity, Mortality, Quality & Safety Conference
 - Health Equity Benefits All Communities

Description:

Internal Medicine: Grand Rounds; Morbidity, Mortality, Quality & Safety Conference

Series Objectives:

- 1 Recognize and integrate evidence-based or best practices regarding diagnosis and treatment of common clinical syndrome or diseases.
- 2 Identify important advancements in sub-specialty internal medicine patients and institute an approach including when and how to refer such patients.
- 3 Increase proficiency in the quality and efficiency of the diagnostic process, including incorporation of best practice evidence for common bedside maneuvers into clinical practice.
- 4 Integrate up-to-date information on clinical ethics, quality improvement, and wellness into routine clinical practice.

Session Objectives:

- 1 Define health equity and differentiate it from related concepts such as health disparities, health justice, and social determinants of health
- 2 Identify structural and systemic barriers that impede equitable health outcomes and apply a health justice framework to design or evaluate policies that promote opportunity and well-being for all communities
- 3 Explain the importance of narrative and communication strategies in promoting cross-ideological support for health equity initiatives
- 4 Assess the role of community engagement and trustworthiness in advancing equitable health policy and care delivery

Accreditation Statement:

University of California, Davis Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
